THE NEW BEARER

OpenBlock™
Cale ajourée

Made from
OpenBoard™
Panneau ajouré

Reduces material use by 40% !

OpenBlock™ is a new and improved bearer used to **Stack, Store** and **Transport** merchandise.

OpenBlock™ is an Innovative* product, specifically designed to answer the needs and expectations of industrial companies that have been trusting us for over **30 years.**

With its innovative* design, the **OpenBlock™** bearer offers several advantages:

1 RENEWABLE AND UNLIMITED SUPPLIES

The **OpenBlock™** bearer is made of compressed woodchips, an inexhaustible material with no supply limits.

OpenBlock™ does not have any constraints associated with crops.

2 ROBUST & DURABLE

The **OpenBlock™** bearer is made of high density particle boards for a very high stability.

3 CLEAN

OpenBlock™ is clean to handle. It does not crumble or pollute production sites.

4 ENVIRONMENTAL

The wood used in the making of **OpenBlock™** bearers, come from sustainable forests.

Raw material use is reduced by as much as 40% compared to more conventional bearers.

5 CUSTOMIZABLE & COMPATIBLE

OpenBlock™ can be used in various configurations and is compatible with existing onsite automatic feeders operating in some industrial plants.

6 ECONOMICAL

OpenBlock™'s unique design optimizes space and reduces weight, for more storage efficiency and more savings in shipping costs.

		OpenBlock™
<h2>YOUR REQUIREMENTS</h2>		
	GOOD MECHANICAL STABILITY 4 TONS / BEARER LOADING CAPACITY	
	DOES NOT DAMAGE OR LEAVE MARKS ON PRODUCTS	
	COMPENSATE PRODUCT IRREGULARITIES	
	COMPATIBLE WITH AUTOMATIC FEEDING LINES	
	EASY STORAGE SPACE OPTIMIZER	
	LIGHTWEIGHT	
	EASY TO RECYCLE AND DISPOSE	
	PART OF A SUSTAINABLE DEVELOPMENT MANAGEMENT PROGRAM	
	INEXHAUSTIBLE AND NON LIMITED RESOURCES	
	MOISTURE RESISTANT	
	CLEAN ON USE AND HANDLING NO CRUMBLING NO ON SITE POLLUTION	

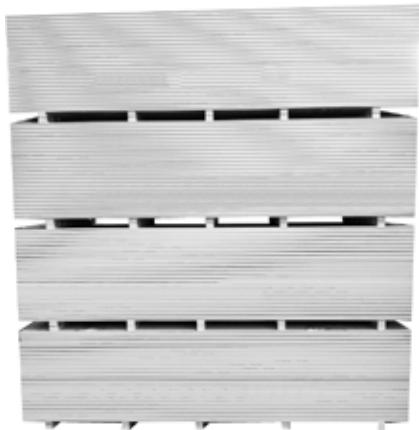

INDUSTRY SOLUTIONS

We develop and provide high quality solutions for the packing sector. Our **OpenBlock™** product line offers safe and cost effective working solutions, tailored to the handling and storing application requirements of various industries.

Plasterboard

Our **OpenBlock™** product line is available in several designs to meet the specifications and requirements of each plasterboard manufacturing plant.

OpenBlock™ can provide the right solution even to the most challenging demands!

Originally developed for the plasterboard industry, **OpenBlock™** is fully compatible with existing onsite automatic feeders.

CUSTOMIZABLE

The **OpenBlock™** manufacturing process allows for great flexibility, making the **OpenBlock™** bearer a highly customizable product; Depending on the requirements, it can be strengthened or lightened for a more cost effective solution.

The right solution for all applications!

We offer industry specific solutions to secure and protect your goods during handling, storage and transport:

Extremities can differ to compensate product irregularities

Grooved to allow strapping

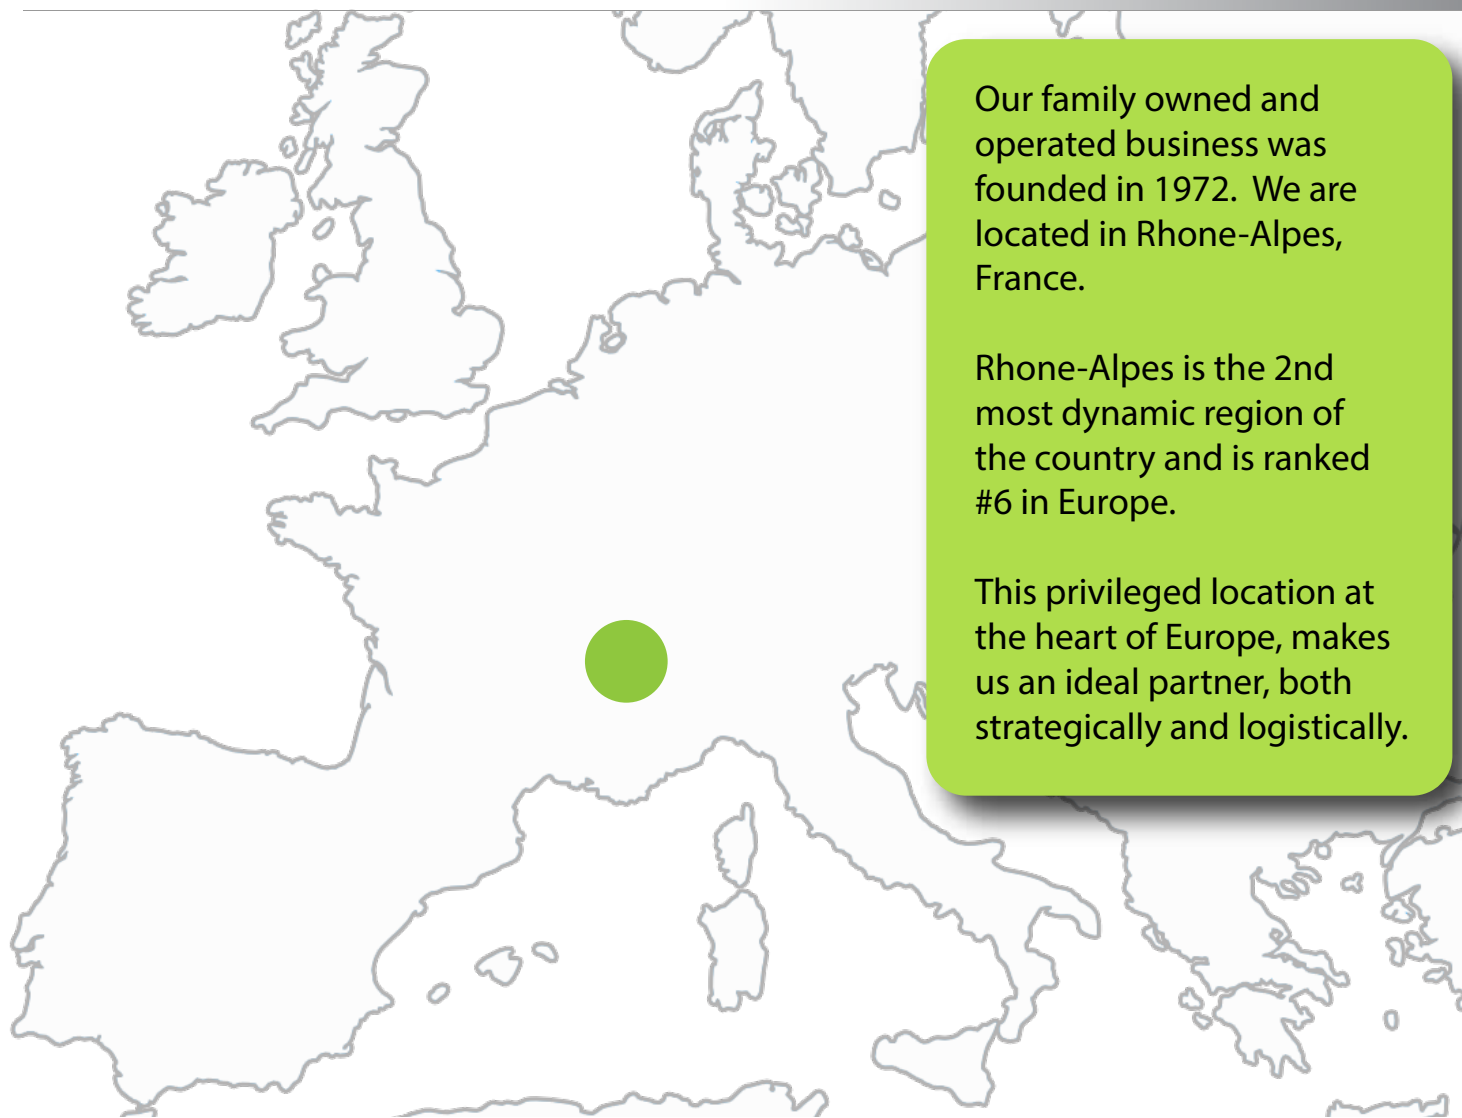

Added paper
we use 100% recycled paper

Available in several configurations and measurements.

STRATEGIC LOCATION

Our family owned and operated business was founded in 1972. We are located in Rhone-Alpes, France.

Rhone-Alpes is the 2nd most dynamic region of the country and is ranked #6 in Europe.

This privileged location at the heart of Europe, makes us an ideal partner, both strategically and logistically.

EXPERTISE & COMPREHENSIVE KNOWLEDGE

Our company has been in business for over 40 years, providing wood-based solutions in different areas.

We have been manufacturing bearers for the last 15 years. During those years, we have learned much about the expectations of a market, and particularly on technical weaknesses as well as market limitations that traditional bearers, commonly used today, are facing. Enriched by this experience, we have designed and developed a new and improved packaging solution: The **OpenBlock™** bearer.

DEDICATED TEAM

Our company is based on the foundation of our core values: Hard Work; Integrity; Teamwork; Excellence. Our qualified and dedicated staff continually strives to provide our corporate clients with high quality manufactured products and impeccable service in a timely manner.

We take pride in our work with a record of 40+ years of excellent customer satisfaction.

STATE-OF-THE-HEART PRODUCTION PROCESS

Since its inception in 1972, the company has constantly modernized its production lines. In recent years we have further improved our manufacturing flexibility and upgraded our equipment to better optimized and increase our production capacity.

In 2013 a new research and development plan was put in motion. In the coming years, we will steadily continue deploying our investment and optimization strategy including on our latest implementation: a newly built, state-of-the-art, highly automated and robotized production line for the manufacturing of our new **OpenBoard™** and **OpenBlock™** products.

ENVIRONMENTALLY FRIENDLY

We are for a Cleaner, Safer and healthier environment. All our products are made of wood, an environmentally friendly raw material.

The wood used in the making of our **OpenBoard™** and **OpenBlock™** products comes from sustainable european forests, and all our suppliers are certified by the Program for the Endorsement of Forest Certification (PEFC*), a management program for sustainable development.

* PEFC is an international non-profit, non-governmental organization dedicated to promoting Sustainable Forest Management (SFM) through independent third-party certification. PEFC is the world's largest forest certification system seeking to transform the way forests are managed globally – and locally - to ensure that all of us can enjoy the environmental, social and economic benefits that forests offer.
